Re: EDA Award Number: 04-79-73001

To Whom It May Concern:

The Rockcastle County Industrial Development Authority filed an application for funding from the Economic Development Administration, U.S. Department of Commerce for the Rockcastle County Industrial Park South Infrastructure Project. This project will consist of installation of 200 LF of 10" gravity sewer, 1,600 LF of 8" gravity sewer and 3,900 LF of 8" water line, 4,000 LF of tri-4" conduit and 3,700 LF of tri-3" conduit all with related structures and appurtenances. The total project cost is estimated to be \$600,000, with the Rockcastle County Fiscal Court providing 30% match.

The utility improvements will serve the new 25,000 sq. ft. SOURCECORP facility and provide increased infrastructure capacity to the existing B&H Tool Works in the park. With the new facility, SOURCECORP plans to create 154 new jobs and retain 96 existing jobs. The infrastructure improvements will also make it possible for the IDA to develop the remaining 92 acres to be sold to private companies and create additional jobs in the region.

As Chairman of the Rockcastle County Industrial Development Authority, I hereby certify that the above-referenced project has received the full review and vetting required by law. I accept responsibility that the infrastructure is an appropriate use of taxpayer dollars.

Sincerely,

A handwritten signature in blue ink, appearing to read "Corey Craig". The signature is stylized and cursive.

Corey Craig
Chairman
